

Axel's 2013 FLHRANV Road King 110th Anniversary #0113

This was my second Road King. After a black 2010 Road King Classic, I was happy to switch from the soft “classic” saddlebags for the more standard painted ones, as the photo equipment was faster and safer to reach.

And in what superb dual colour it was painted: Vintage Bronze and Black. It matched perfectly with the impressive tank badge, and I loved it, it never looked dirty.

A trusted companion for 3 very active years, the bike took me from latitude N31° in the South of Morocco, to latitude N71°, the northern tip of Europe, the Nordkapp in Norway.

In each of the seasons 2013 – 2015, we successfully completed 3 Iron Hog Challenges, neither the Road King nor me broke down. And how could we, as in 2013 this unique bike was blessed by the pope on St. Peter's Square in Rome.

It was my second Harley, but as with every bike before, I regretted the moment we parted ways, but specially with this one.

“Keep it” cried my heart, “Sell it now” said my head, and won...

In 3 amazing years, maybe my most active riding years with Hogsback Chapter, we rode over 60,000 miles, nearly 2.5 times around the earth.

From Opale Shore to the Blazing Rallies, from St Tropez to Jerez, Dambuster, Magic Bike and Winefest, these are only a few other events we visited, not once, but nearly every year. Researching for this contribution to “Memorable Machines”, the Hogsback Photo Galleries helped me a lot to rediscover how much I shared with this awesome machine, how much I loved to ride it.

This Road King 110th Anniversary (#0113) is clearly one of my most memorable motorcycle. Thank you for 60,000 miles, I hope your next owners treat you well.
